Occupant load is specific number from Certificate of Occupancy.

This temporary permit is valid until issuance of an annual permit.

This permit must remain posted in a conspicuous location on the premises and is not transferable.

This temporary permit is not renewable. Final permit conditions may be different than those prescribed here.

PERMIT CONDITIONS GROUP A - ASSEMBLY OCCUPANCIES INCLUDES OPEN FLAME

The following permit conditions shall be adhered to all times in order for the permit to be valid.

1. **These permit conditions for Seattle Fire Department permit code 2501/2502/2504 do not include persons performing with fire. A separate temporary permit is required.**
2. A Seattle Fire Department permit (Code 2502.1 or 2502.2) is required for any Group A assembly occupancy having an occupant load of 100 or more. (09 SFC 105.6.34)
3. A Seattle Fire Department permit (Code 2509 or 2510) is required to use open flames or candles in any Group A assembly occupancy having an occupant load of 50 or more. (09 SFC 308.2)
4. A separate Seattle Fire Department permit is required for use and handling of pyrotechnic special effects material. (09 SFC 105.6.36)

PERMIT CONDITIONS CONTINUED

5. A Certificate of Occupancy shall be posted in a conspicuous place on the premises and shall not be removed except by the building official. If the Certificate of Occupancy (CO) is unavailable the permit holder must obtain a valid copy of the CO or show proof of application within one year to the Department of Planning and Design to obtain the Certificate of Occupancy. Failure to obtain a copy of the CO or make application may result in cancellation of this permit. (09 SFC 105.3, 09 SBC 110.1)
6. Every room or space that is an assembly shall have the occupant load of the room or space posted in a conspicuous place, near the main exit or exit access doorway from the room or space. (09 SFC 1004.3)
7. At no time shall the number of persons in a building or portion thereof exceed the occupant load specified on the Certificate of Occupancy issued by the Department of Planning and Development. (09 SFC 1004)
8. Fire drills shall be conducted for all employees on a quarterly basis. (09 SFC 405.2)
9. Furnishings, decorations or other objects shall not be placed so as to obstruct exits, access thereto, egress therefrom, or visibility thereof. Hangings and draperies shall not be placed over exit doors or otherwise be located to conceal or obstruct an exit. Mirrors shall not be placed on exit doors. Mirrors shall not be placed in or adjacent to any exit in such manner as to confuse the directions of exit. (09 SFC 1008.1)
10. The means of egress, including the exit discharge, shall be illuminated at all times the building space served by the means of egress is occupied. (09 SFC 1006.1)
Exception: Aisle accessways.
11. An exit shall not be used for any purpose that interferes with its function as a means of egress. (09 SFC 1018.1)
12. Egress doors shall be readily openable from the egress side without the use of key or special knowledge or effort. (09 SFC 1008.1.9)
13. Buildings with a Group A assembly occupancy having an occupant load of 300 or less, and all places of religious worship, are permitted to have the main exterior door, or doors, equipped with key-operated locking devices from the egress side provided:
 - A. The locking device is readily distinguishable as locked.
 - B. A readily visible durable sign is posted on the egress side on or adjacent to the door stating "THIS DOOR TO REMAIN UNLOCKED DURING BUSINEES HOURS". The sign shall be in letters 1 inch (25 mm) high on a contrasting background. (09 SFC 1008.1.9.3)
14. Fire detection, alarm and extinguishing systems shall be maintained in proper working condition at all times. (09 SFC 901.6)
15. Extinguishers, hose and similar fire extinguishing appliances shall be located in conspicuous locations readily accessible and immediately available for use. (09 SFC 906.5)
16. A separate temporary permit from the Seattle Fire Department Special Events Section is required to introduce any flammable or combustible material into a place of assembly or alter the existing configuration (e.g. exiting) in any manner. (09 SFC 105.6.34.2)
17. Sound-proofing materials shall meet flame-spread requirements. Required documentation to remain on file and available for inspection. (09 SFC 807.1, 09 SBC 719 & 803)
18. Curtains, draperies, hangings and other decorative materials suspended from walls or ceilings shall be flame resistant in accordance with Section 807.2 and NFPA 701 or be noncombustible. (09 SFC 807.1)
19. Where required to be flame resistant, decorative materials shall be tested by an approved agency and pass Test 1, as described in NFPA 701 or such materials shall be noncombustible. Reports of test results shall be prepared in accordance with NFPA 701 and furnished to the fire code official upon request. (09 SFC 807.2)
20. Places of assembly shall be under the constant supervision of a competent adult on the premises during the time that the premises are open to the public. (09 SFC 105.3)

PERMIT CONDITIONS CONTINUED

OPEN FLAME DEVICES AND CANDLES

NOTE: Nothing in the Fire Code shall prevent participants in religious ceremonies from carrying hand-held candles (Ref RCW 19.27.031(3)). It is the objective of the Fire Code to prevent the risk of injury arising from the use of hand-held candles in places of public assembly by children age 12 or under.

FLAMING FOOD AND BEVERAGE PREPARATION

1. Flammable liquids may be used in the preparation of flaming foods and beverages only when dispensed from one of the following:
 1. A 1-ounce container, or
 2. A container not to exceeding 1-quart capacity with a controlled pouring device that will limit the flow to a 1-ounce serving. (09 SFC 308.1.7.1)
2. Flaming foods or beverages shall be prepared only in the immediate vicinity of the table being served. They shall not be transported or carried while burning. (09 SFC 308.1.7.4)
3. The person preparing the flaming foods or beverages shall have a wet cloth towel immediately available for use in smothering the flames in the event of an emergency. (09 SFC 308.1.7.5)
4. The serving of flaming foods or beverages shall be done in a safe manner and shall not create high flames. The pouring, ladling or spooning of liquids is restricted to a maximum height of 8 inches above the receiving receptacle. (09 SFC 308.1.7.3)
5. Containers shall be secured to prevent spillage when not in use. (09 SFC 308.1.7.2)

CANDLES AND OTHER OPEN-FLAME DECORATIVE DEVICES

6. Class I flammable and II combustible liquids and liquefied petroleum gases shall not be used. (09 SFC 308.1.9)
7. Liquid or solid-fueled lighting devices containing more than 8 ounces must self-extinguish and not leak fuel at a rate of more than 0.25 teaspoon per minute if tipped over. (09 SFC 308.1.9)

Note: If there is a question whether the device meets this requirement, take the device to a safe location and conduct a field test.
8. The devices or holder shall be constructed to prevent the spilling of liquid fuel or wax at the rate of more than $\frac{1}{4}$ (0.25) teaspoon per minute when the device or holder is not in the upright position. (09 SFC 308.1.9)

Note: If there is a question whether the device meets this requirement, take the device to a safe location and conduct a field test.
9. The device or holder shall be designed so that it will return to the upright position after being tilted to an angle of 45 degrees from vertical. (09 SFC 308.1.9)

Exception: Devices that self-extinguish if tipped over and that do not spill fuel or wax at a rate of more than a 0.25 teaspoon per minute if tipped over.
10. The flame shall be enclosed, except as follows:
 - a. Openings on the sides shall not be more than 0.375 inch in diameter.
 - b. Openings on the top, and the distance to the top, is such that a piece of tissue paper placed on the top will not ignite in 10 seconds. (09 SFC 308.1.9)
11. Chimneys shall be made of non-combustible materials. Such chimneys shall be securely attached to the open-flame device.

Exception: The chimney is not required be attached to any open-flame device that will self-extinguish if the device is tipped over. (09 SFC 308.1.9)
12. Fuel canisters must be safely sealed for storage. (09 SFC 308.1.9)
13. Storage and handling of combustible liquid shall be in accordance with Chapter 34 of the SFC. (09 SFC 308.1.9)
14. Shades, if used, shall be made out of non-combustible materials and securely attached to the open-flame device holder or chimney. (09 SFC 308.1.9)
15. Candelabras with flame-lighted candles shall be securely fastened in place to prevent overturning and located away from occupants using the area and away from possible contact with drapes, curtains, or other combustibles. (09 SFC 308.1.9)
16. Open flames shall not be located on or near decorative material or similar combustible materials. (09 SFC 308.1.5)
17. Candles are prohibited in areas where occupants stand, or in an aisle or exit. (09 SFC 308.1.8)
18. A competent adult shall remain within 15 feet of the child, at all times, unless an alternate safety standard, proposed by the person requesting the permit is approved by the fire code official. (09 SFC 308.1.6)
